

ZAS Architects Inc. is an award-winning, mid-sized architectural consulting firm with offices in downtown Toronto, Vancouver and the United Arab Emirates. The firm's expanding portfolio includes a multitude of diverse projects, recently the Bergeron Centre for Engineering Excellence at York University, the Civic Centre Resource Library in Vaughan and the Rosemont Hotel & Residence in Dubai, all of which have enjoyed international recognition. Creativity, team spirit, ability to actively listen and willingness to constantly learn are all important qualities embraced by ZAS staff – our most valuable asset. Their combined talents allow our practice to thrive, while creating high quality, innovative and inspiring, beautiful, yet affordable, places.

To service on-going projects, which include all levels of educational facilities, community buildings, corporate offices and complex residential projects, we are currently seeking highly motivated and experienced technical staff, who wish to join our team in Toronto, in particular **Senior Technologists** with the following qualifications (listed in order of importance):

Qualifications:

- Minimum 9 years of Canadian experience (post-graduation, not including school internships) – **please apply using a different subject line if you do not meet this requirement.**
- Expertise in Revit and fluency in AutoCAD (with documented work experience);
- Excellent understanding of building systems, materials and detailing;
- Design sensibility, self-motivation and enthusiasm;
- Proficiency in MS Office suite, Adobe software and Sketch-Up;
- Good organizational and communication skills with ability to work under pressure and on multiple project deadlines;
- Understanding of OBC and exposure to contract administration;
- Work experience with educational, recreational and/or community facilities;
- Demonstrated knowledge of integrated design process and sustainable design principles/programs, LEED in particular.

Job Responsibilities:

The role involves a wide range of responsibilities all requiring creative thinking, problem solving, organization and attention to detail and involving (but not limited to) the following in particular:

- Oversight, development and guiding of technical detailing;
- Coordination of internal project deliverables in relation to project milestones;
- Active participation in production planning (Project Manager support);
- Coordination of sub-consultants' activities (Project Manager support);
- Leadership and/or support of project teams developing architectural construction documents utilizing Revit;
- Multidisciplinary coordination of permit and construction documents;
- Timely production of assigned deliverables, often on multiple projects simultaneously;
- Review of documents for completeness, accuracy, compliance with design intent and applicable regulations;
- Construction material research for use in drawings and specifications;
- Junior staff mentorship.

Please apply via e-mail only to info@zasa.com with the subject line: **Senior Technologist**. Attach only your CV (maximum 2 letter-size pages, no portfolios) as a PDF file named **STyourlastname.pdf** (i.e. STfinnegan.pdf).

ZAS Architects is committed to inclusive and accessible employment. We will accommodate applicants with disabilities throughout the selection process in accordance with the Accessibility for Ontarians with Disabilities Act (AODA) – please make your needs known in advance if such accommodation is required.

We thank all applicants in advance for their interest in this job opportunity, however, only the candidates given further consideration will be contacted directly.
